DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statements (IDS) submitted on April 28, 2004 and June 16, 2004 have been considered by the examiner.

Allowable Subject Matter

3. Claims 1-14 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art teaches preparing compounds of the general formula I by reacting α,β -dicarbonyl compounds with alcohols. However, the prior art fails to teach or fairly suggest carrying out such reactions in a countercurrent apparatus. U.S. Patent No. 6,173,656 B2 discloses the use of a falling film evaporator to concentrate the aqueous glyoxal solution. However, a tubular reaction is used to conduct the reaction between the concentrated aqueous glyoxal solution and the alcohol (see entire disclosure, in particular column 6, line 50 to column 7, line 58 and example 7).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
